

ENZYBREW 10

Enzymatic detergent for homebrewing equipment

Tri-enzyme professional detergent specially designed for the daily cleaning of homebrewing equipment. ENZYBREW 10 removes all organic residues encountered during the production of beer such as vegetable fibers (hop, distillers grains), starch, caramelized sugars, etc. Ideal for cleaning filter plates, wort cooler and maturation, boiling and fermentation tanks. Formulated without phosphorus, ENZYBREW 10 ensures a deep and safe cleaning of all installations. Compatible with Teflon.

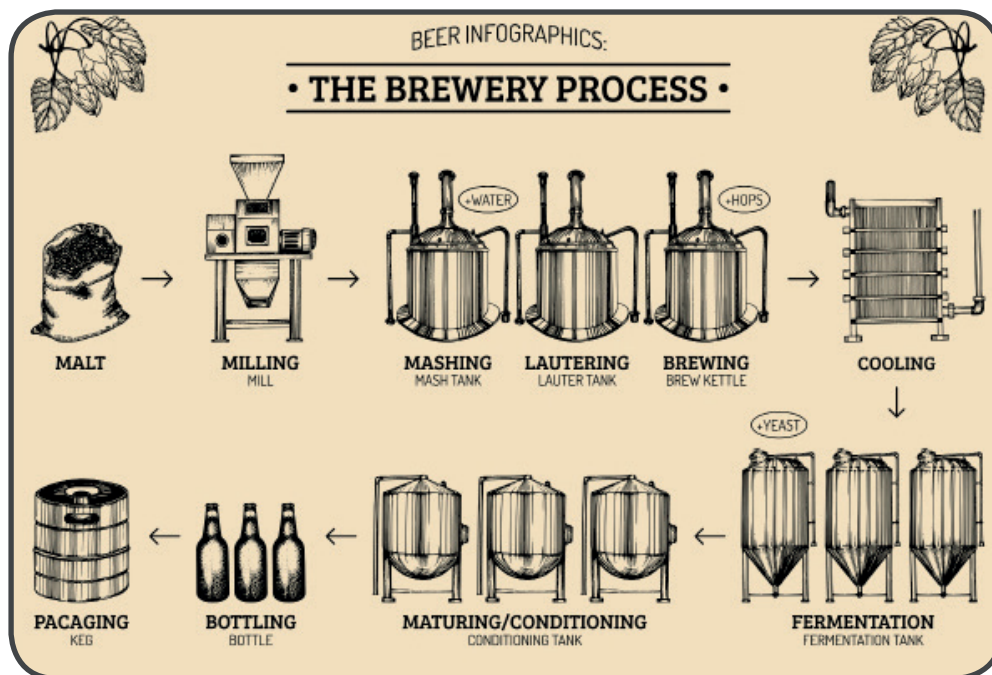

Advantages

- **Reinforced hygiene:** effectively prepares for disinfection
- **Cleaning in one cycle** (time and water savings)
- **Very good rinsability**
- **Hazard-free for users:** non-corrosive product (no risk of burns)
- Environmentally friendly **alternative to caustic soda**
- **Biodegradation rate** > 98% in 28 days

Fields of application

Suitable for:

- Brewing vessels (boiling, filtration)
- Hoses and pipes
- Fermenters
- Bottling equipment

Directions for use

MANUAL APPLICATION

Suitable for cleaning after each use.

Recommended dosage: 5 to 10g/l depending on the fouling of the equipment. For equipment with a CIP system, use a 10g/l concentration.

1. Dilute the product in warm water (45-60°C) and mix well.
2. Leave the material to soak for 30 minutes or scrub it.
3. Rinse with warm water.
4. Disinfect.
5. Rinse with clear water.

Notes:

- Avoid prolonged contact with light metals (aluminum, iron, copper).
- Color and odor of the product can change over time due to biodegradable components. These changes do not affect the quality and effectiveness of the product. For more information, please contact your Realco expert.

Temperature
45 - 60°C maximum

Action

+ rinsing

Concentration
5 to 10g/l (0,5 - 1%)

Contact time
10 to 30 minutes

pH value

In solution

Certifications and regulations

Product compliant:

- with European Regulation EC 648/2004 concerning detergents
- with Regulation EC 1272/2008 concerning the classification, packaging and labelling of substances and mixtures
- with the REACH European Regulation (EC 1907/2006) adopted to protect human health and the environment better from the risks linked to chemical substances

Safety

Consult the safety sheet (available on www.realco.be/msds) and the product label for more information.

Storage

Storage in closed original package between +4°C and +25°C in a dry, well-ventilated area. Keep out of reach of children.
